STUDENT AND PARENT CONCERNS

(For purposes of special educational decision-making, parent shall mean father, mother, legal guardian, person acting as a parent of the child, foster parent, or an educational surrogate parent appointed in accordance with federal law.)

Draft

Massachusetts DESE Individualized Education Program (IEP)

Student: AK

IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

What concern(s) do you want this IEP to address?

Student Vision (2024-2025)

rents:

AK 's Vision in response to Charting a Life Course Trajectory prompt for "what is a good life":

Activity: Time on the iPad/computer (ie., how houses are built, car shops, parades, family pictures, state/country songs), listening to music, reading books, watching television (ie., AccuWeather, sports, HGTV), family pictures (photo frame), swinging, swimming with music on, dining out (Wendy's, Longhorns, Sullivans...), Holiday decorations and movies, Sunday Happy Place Church, Happy Place Clubhouse, seeing my friends, being good with my family, Special Olympics bowling and track, having plans and things to look forward to, Likes to record messages

Travel: Trips to Boston (swan boats, Cheers, Castle Island airplanes, Cheesecake Factory), Yarmouth sand sculpture hunting with a map, Riverwalk Resort in Lincoln NH, Visiting NY (Lion King, Rockettes)

Living: with my mom and dad in my own room with a TV

Working: cleaning fitness room

Parent Concerns 2024 (update/progress):

1. Increased/timely communication of incident reports.

This has been addressed

2. Preparedness for AK turning 22.

Mom is working part time and able to engage in many educational opportunities with regards to transition

3. Vocational Opportunities

Addressed with transition assessment.

4. Communication on program vocational opportunities.

Addressed with weekly communication

Massachusetts DESE Individualized Education Program (IEP)

IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

2025 Areas of Concern:

Safety:

- Navigating parking lots and street crossings
- Fixation on children and clothing making being in community a challenge and unsafe
- Being able to safely be home alone for a short time
- Recognizing emergencies
- Safe from abuse

Daily Life:

- Self care and level of dependence (showering, teeth brushing, lotioning, dressing appropriately for weather)
- Management of his toiletries and placement of supplies (towels, toothbrush rinsing, using his own supplies)
- Loss/misplaced/paint ruined clothing
- Bathrooming Issue - BM's in his clothes, on his fingers and bedding
- Able to make a of couple simple meals (sandwich, chicken nuggets and tater tots)
- Skill building in the community (shopping, dining out, movies ...)
- What will routines be after 22

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025
Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

- AK reporting on his day. He does not answer questions over FT. Need an effective way for him to communicate with f

Community Post 22:

- Where AK will live
- Access to activities, planning the activity and support with the activity
- Transportation

Social:

- AK has few connections to friendships of his own that he is able to navigate independently.
- Has many recreational/leisure interests but lacks friendships/connections/support to explore and participate

Advocacy:

- AK is not able to speak up for himself in that he may not give accurate information of a situation and is unable to account fwn behavior or thoughts.

Healthy Living:

- Access to physical fitness and strength training, making good nutritious choices for meals and snacks and self care with regards to bathrooming.

Family Support:

- AK has very few friends/family members actively involved in his life.

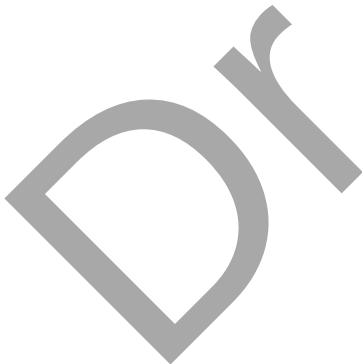

STUDENT AND TEAM VISION

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Student's Vision/Postsecondary Goals(required for ages 14–22, may be completed earlier if appropriate)	
While I am in high school, I want to:	The classes I enjoy are Industrial Arts, Speech, Recycling, OT, Central Supply, Greenhouse and Math
After I finish high school, my education or training plans are:	The skills I need to work on are cleaning, laundry and safety
After I finish high school, my employment plans are:	A job that involves collation, making beds or recycling
After I finish high school, my independent living plans are:	I would like to live in a group home with Staff Check-In.
Additional Team Vision Ideas	
In response to the student's vision, this year:	Parent Vision (2024-2025): We see AK living a joyful, safe and as independent life as possible with the necessary supports in an appropriate setting with access to robust life enriching programs and experiences along with social and employment and/or volunteer opportunities within his community. Transitioning to possible, when AK adjusting with support from his family, to a group home as close to Franklin as turns 22.
In response to the student's vision, in 5 years:

Massachusetts DESE Individualized Education Program (IEP)

Student: AK

IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB]

LASID#: [LASID]

SASID#: [SASID]

Briefly describe current academic performance. Check all that apply: ☒ English Language Arts ☒ History and Social Sciences ☒ Math ☒ Science, Technology, and Engineering	Strengths, interest areas, and preferences	Impact of student's disability on involvement and progress in the general education curriculum or appropriate preschool activities
AK is a 19 year-old young man who related to Cardinal Cushing Centers as a day student in July 2022 and transitioned to a residential student in July of 2023. He is a hardworking and kind young man who has strong memory skills. He has many interests, including geography, singing, music, and swimming. He also enjoys the weather, scavenger hunts, bowling, soccer, Legos, construction sites, and dining out at restaurants. He has participated in Cardinal Cushing's basketball teams and practices on Fridays. Residentially, he enjoys reading books and playing games with peers and staff. AK is currently part of the Post High School program that affords students the opportunity to learn a variety of skills which enable them to live and work as independently as possible after completion of the program. Areas of focus include functional academics, pre-employment skills, as well as social, safety, and leisure skills. In addition to lessons and tabletop activities within the classroom, AK receives daily pre-employment training at various work sites on campus throughout the week including a supply/stock room, laundry room, greenhouse, thrift store, and craft boutique. He also has the opportunity to collect recycling, clean the school vans, and shred. Based upon evaluation data, classroom performance, teacher and parent input, the Team determined that AK is eligible for Special Education to a primary disability under the Neurological category, a secondary disability of Intellectual and tertiary disability of	During his free time, AK enjoys having access to his preferences, flash cards, a chromebook or an Ipad. AK is able to utilize his reading skills to read the daily lunch menu and read the events calendar to identify after school activities.	AK's disabilities fall into the categories of Neurological, Autism, and Intellectual; they impact his ability to access the general education curriculum at grade-level standards. AK's diagnosis of cataplexy interferes with his ability to learn at various times. AK's cataplexy is variable. It can occur without a noticeable antecedent such as laughing or when there is no warning sign. A loss of voluntary muscle control causes AK to fall to the ground if standing or sitting, or to fall forward or to the side when seated in a chair. He will frequently engage in laughing, especially when presented with materials of high interest, technology, or when the instructor presentation is animated, which can escalate him to lose control of his muscles causing him to drop to the ground. At times, this can be redirected. AK struggles to sustain attention for periods of time, especially in a large group setting. He benefits from teacher prompts and visuals in front of him to complete routines and maintain expected social pragmatic skills, including maintaining personal space, and appropriate greetings. AK accesses the curriculum through components of the Massachusetts Curriculum Frameworks. At times, when AK does not want to engage in an academic activity he might demonstrate unexpected behaviors such as saying "no" repeatedly; swiping materials on the floor, ignoring the directions, leaving the instructional area. AK's attention and/or arousal level is variable and impacts his engagement in learning and task completion. He is slow to process information and requires a wait

PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE: BEHAVIORAL/SOCIAL/EMOTIONAL

Briefly describe current behavioral/social/emotional performance. Consider the use of positive behavioral interventions and supports, and other strategies, to address behavior that impedes learning.	Strengths, interest areas, and preferences	Impact of student's disability on involvement and progress in the general education curriculum or appropriate preschool activities
AK is a social and engaging young man. He enjoys being around others, but also enjoys time in his bedroom. When around others he does require close supervision as he has a history of asking other for touches such as a high 5, which appear innocent in nature, but can quickly be more sexualized in nature for AK. He has also been known to r from the group and inadvertently join another group/family. These wanderings are not bolting or elopement, but rather he sees something of interest and wanders to look at it. He currently has current behavior which indicate contact with AK is in the form of a fist bump only s the language of "One and done". AK also has access to a variety of social skills which prepare him for unfamiliar situations or for familiar situations in which he might have had difficulties with in the past. AK has a low tolerance for noise and wear noise dampening headphones to block the noises of others. He wear these in both the classroom and residence. His staff are currently working with him to wear them less often as he wears them as soon as he sees anyone or anything in which he perceives might make louder noises.	AK is a social young man who greatly listening to music and singing, looking at pictures of family and friends, swimming, running with the Special Olympics track and field, biking during bike club, participating in class and after in after-school recreational activities. He talks with most everyone and is quick to ask who someone is if there is an unfamiliar person around. Overall, he does well following directions, but might need some prompts to remain with the group during transitions. While he appears to get along well with most of his peers, he has one particular peer with whom he interacts the most. AK and this peer interact frequently in the classroom as well as in the residence. AK is an excellent reader and enjoys reading books on his own as well as with his staff. He will often enjoy reading a page then asking his staff to read the next page and so on.	Overall, AK has made great progress in all areas of joining Cardinal Cushing Centers. His community involvement is his biggest obstacle given his wandering and inadvertent joining of other groups as well as some of his sexualized actions. His low tolerance for noise can sometimes make it hard for him to concentrate and participate effectively in class as well. While AK is a social young man, his lack of boundaries and appropriate social skills can make it hard for him to keep and maintain solid/long term friendships.

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Bullying	
Describe any disability-related skills and proficiencies the student needs in order to avoid and respond to bullying, harassment, or teasing. This section must be completed for students who have a disability that affects social skills development; students vulnerable to bullying, harassment, or teasing; and students with autism.	Specify how these needs, if any, will be addressed in the IEP.
Due to AK's diagnosis of Autism Spectrum Disorder, he is very vulnerable to bullying, harassment, and teasing. AK's social skills are delayed and limit his ability to realize if he is being bullied or harassed. AK struggles with self-advocating and requires supervision to identify, avoid, and respond to bullying, harassment, and teasing appropriately. Additionally, due to his lack of social skills he might be unaware if his attempted social interactions are bullying to others.	Cardinal Cushing observes a zero-tolerance policy for bullying and has formulated a comprehensive approach for addressing and preventing bullying, cyber-bullying, harassment, and retaliation. Students identified as having a disability may participate in or be vulnerable to bullying, harassment, or teasing based upon that disability. These concerns are addressed both programmatically and within the goals of this IEP.

Autism-Specific Question: Does the student require any positive behavioral interventions, strategies, and supports to address their behavioral difficulties resulting from autism spectrum disorder?
☒ Yes ☐ No

Autism-Specific Question: Does the student need to develop social interaction skills and proficiencies?
☒ Yes ☐ No

Autism-Specific Question: Does the student have needs related to changes in environment or to daily routines?
☒ Yes ☐ No

Autism-Specific Question: Does the student have needs related to repetitive activities and movements?
☒ Yes ☐ No

Autism-Specific Question: Does the student have needs resulting from their unusual responses to sensory experiences?
☒ Yes ☐ No

If yes, this need will be addressed in the following section(s) of the IEP:

☒ Accommodations/Modifications	☒ Services Delivery Grid
☒ Goals/Objectives	☐ Additional Information

Massachusetts DESE Individualized Education Program (IEP)

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE: COMMUNICATION

Briefly describe current communication performance.	Strengths, interest areas, and preferences	Impact of student's disability on involvement and progress in the general education curriculum or appropriate preschool activities
AK is a friendly verbal communicator able to make his wants and needs known throughout his day given the structure, predictability and routine of his academ vocational environments. Overall, AK continues to demonstrate increas ess in targeting his speech and language goal and subsequent objectives within structured environments compared to u ured. To aid in his communication, AK benefits from extra processin , gaining his attention prior to engaging with him, breakdown of complex/novel directions, and modeling use of appropriate social language.	AK is a very social, determined, and orking verbal communicator who is an active participant in both his small and large group speech sessions. AK demonstrates relative strengths in cial pragmatic language in the areas of greeting his communication partner, terminating conversations, advocating for his wants/needs, identifying feelings in himself and others, and providing on-topic com with a prompt. On his recent IEP, AK has increased his skills in identi hen an individual is busy/available given visual support, identifying when it is his turn to listen/talk with a verbal prompt, and providing new on-topic comments to the conversation.	Areas of need that impact AK 's communication are his ex e and pragmatic language skills. AK 's reduced communication s pact his ability to direct others, to appropriately engage socially with and identify expected communication skills, and identify an appropriate communication partner to engage wit s various settings. Additionally, AK 's diagnosis impacts his impulsivit es, with his communication.

Does the student require the use of augmentative and alternative communication (AAC)? Consider any AAC needs for non-speaking students or those with limited speech.

☐ Yes ☒ No

Autism-Specific Question: Does the student have needs in the areas of verbal and nonverbal communication, including but not limited to those identified in assistive technology/AAC evaluation(s)?

☒ Yes ☐ No

☒ Accommodations/Modifications	☒ Services Delivery Grid
☒ Goals/Objectives	☐ Additional Information

PRESENT LEVELS OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE: ADDITIONAL AREAS

Additional Areas, as Applicable (such as activities of daily living, health, hearing, motor, sensory, and vision) Briefly describe current performance and any applicable documentation. Please note that parent(s) are only asked to share health information voluntarily.	Strengths, interest areas, and preferences	Impact of student's disability on involvement and progress in the general education curriculum or appropriate preschool activities
ational Therapy: AK demonstrates functional writing ping skills and is able to independently manage his school-based ADL's. He is capable of managing his residential-specific self care with the use of reminders, visuals, mne and verbal prompts as needed. AK 's sensory needs are manage gh access to noise-dampening headphones and strategies such as taking deep breaths when overstimulated often by excess excitement. He benefits from naturally occurring movement breaks throughout his da omote attention and regulation. AK benefits from the breakdown of n d familiar multi-step tasks, with visuals across settings. AK often requires several verbal p to gain and maintain his attention to a directed task as he is highly motivated by social interaction with staff and peers.	ational Therapy: AK is always agreeable and pates in OT activities wi hesitation. A great strength of AK 's is his memory. He often utilizes onic devices through song, using repetition and rhythm to recall information or to interpret the passing of time. For example, when learning phon bers for potential safety situations, AK will them in a "sing-songy" AK benefits from these mnemonic ds to complete ADL routines with effective thoroughness, for example saying "1 fish, 2 fish, red fish, blue fish" while applying his deodorant or washing his while rhythmically counting to 10. AK also has strengths in his sense of h social nature, and his expansive interests and curiosity. Residentially, AK has a number of strengths. He od advocate for his own needs and is very independent with leisure time. He gets along well with peers and participates willingly in all activities.	ational Therapy: AK 's diagnoses impacts his ability to s the general education curriculum, presenting with challenges in executive functioning, auditory processing, attention, impulsivity and praxis with daily tasks across settings. He requires specialized instruction and environmental adaptations to be access his vocational, academic, and residential instruction. Residentially, AK 's biggest challenge is his sensitivi oise created by his housemates.

Postsecondary Transition Briefly describe current performance.	Strengths, interest areas, and preferences	Impact of student's disability on involvement in the general education curriculum and/or specific area of postsecondary transition
Education/training AK is part of the Community-tunity-Responsibility-Education program (CORE), which aims to afford students the opportunity to learn a variety of skills which will enable them to live and work as independently as possible after graduation. AK is a member of Cardinal Cushing, AK practices and refines skills, related academic areas, functional math, functional reading, functional writing, task completion, safety and social skills, and communication. He has opportunities within the classroom to engage in activities at his ability level. AK will continue to practice and build social/emotional and relationship skills while placed at Cardinal Cushing Centers.	See PLAF-A	See PLAF-A
Employment Given visual and staff support, AK has expressed that he may be interested in working at cooking and cleaning in a kitchen and wiping tables. He also mentioned wanting to fold clothes at a clothing store. As part of the CORE program, AK will continue to learn work skills, develop work habits and attitudes while completing vocational tasks within the classroom and throughout the Cardinal Cushing Centers campus in order to prepare for postsecondary employment opportunities. AK participates in laundry duties, such as loading & unloading, starting the machine, and folding. At Greenhouse, the students typically work on lawn care and horticultural tasks. At bottles redemption, students typically sort and pack cans and bottles to be recycled. AK also practices vocational skills in working, craft making, and at the clothing stockroom on campus, as well as a cleaning job at an off-campus location. AK progresses through the program, AK's vision and interests will	See PLAF-A 	See PLAF-A

STATE AND/OR DISTRICTWIDE ASSESSMENT/ALTERNATE ASSESSMENT

Identify the state or districtwide assessments planned during the IEP period. Consider MCAS (Grades 3–12), ACCESS (Grades K–12), etc

MCAS requirements have been met.

How does the student participate in state and/or districtwide assessments?

- ☐ The student participates in on-demand assessment with no accommodations under routine conditions in all content areas.
- ☐ The student participates in on-demand assessment with accommodations.
- ☐ The student participates in state and/or districtwide alternate assessment(s).

MEASURABLE ANNUAL GOALS

Please identify the academic and functional goals for this student this year. The goals must be measurable and meet the student’s needs that result from their disability to enable them to be involved in and make progress in Early Childhood Outcomes (ages 3–5) or the Massachusetts Curriculum Frameworks (older students). The goals must meet each of the student’s other educational needs that result from their disability. Please include additional goals as necessary.

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025
Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Goal Number: 1	Goal Area: Community			
Baseline (What can the student currently do?):				
AK has shown great progress staying with the group while transition across campus and staying with the group while ng streets and moving through parking lots. He has also done well during simulated shopping ctivities that were apart of different math, reading or life skill lessons.				
Annual Goal/Target What skill(s) will the student be expected to attain by the end of this IEP's timeframe?	Criteria What measurement will be used to determine whether the goal has been achieved?	Method How will progress be measured?	Schedule How frequently will progress be measured?	Person(s) Responsible Who will monitor progress?
AK will successfully ete a shopping routine as measured by the following objectives	80% in 4 out of 5 opportunities observed.	Progress will be measured by formal and informal observations	Bi weekly data collection.	The Special Education Teacher will be responsible for reporting on progress. Data will be collected across school and residential settings.

Short-term objectives and/or benchmarks (intermediate steps between the baseline and the measurable annual goal)				
1. Given classroom lessons AK will identify the names of common departments of a supermarket and learn how to navigate the store by reading aisle signs t of 5 opportunities observed.				
2. Given practice navigating the departments of the store and reading aisle signs, AK will correctly locate a given item section or aisle in 4 out of 5 opportunities observed.				
3. Given a visual shopping list, AK will identify (verbally or by pointing to) each items on the shopping list and locate each item and cross it off the list, in 4 out of 5 unties observed.				
4. AK will greet the cashier and upon being given the total, will utilize his next dollar up strategy or swipe a debit card to pay for the ite d then wait for a receipt, in 4 out of 5 opportunities observed with 80 percent accuracy				

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025
Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Goal Number: 2	Goal Area: Vocational Exploration			
Baseline (What can the student currently do?):				
AK has done a great at the vocational sites on campus. He does really well at Central Supply finding the items necessary plete an order and when it is completed he will go with staff to make deliveries. He is able to follow staff directions in Industrial Arts and Take 2 (in the donation department) and completes the tasks that he is given with few verbal prompts. He really enjoys, and often requests going to laundry and does well following the steps needed to complete the laundry task.				
Annual Goal/Target What skill(s) will the student be expected to attain by the end of this IEP's timeframe?	Criteria What measurement will be used to determine whether the goal has been achieved?	Method How will progress be measured?	Schedule How frequently will progress be measured?	Person(s) Responsible Who will monitor progress?
Using job exploration curriculum materials and/or job sit observations, AK will complete a jo exploration routine as measured by the following objectives	80% 4 out of 5 opportunities observed.	Progress will be measured by formal and informal observations	Bi weekly data collection	Special Education teacher.

Short-term objectives and/or benchmarks (intermediate steps between the baseline and the measurable annual goal)	
1. After reading job exploration materials or completing a job observation, AK will assess the job matches his work preferences and interests by completing a checklist or writing down at least comments, wit bal and/or gestural prompts in 4 out of 5 opportunities observed.	
2. AK ob . will indicate at least 2 likes and/or dislikes about the job with two verbal and/or gestural prompts in 4 out of 5 opportunities	
3. AK will identify at least two skills required for the job with 2 verbal and/or gestural prompts in 4 out of 5 opportunities observed.	

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Goal Number: 3	Goal Area: Communication			
Baseline (What can the student currently do?):				
Data for this baseline was collected on observations in speech and language sessions and within the classroom context from across two months. AK is a social and active participant in speech and language sessions in large groups in the classroom or speech groups in any room, in addition to community outings (e.g., Dollar Target, etc.). He is more successful in targeting these objectives in structured environments compared to unstructured. AK identifies verbal and nonverbal communication that indicates it is his turn to speak and is turn to listen in 56% of opportunities given a visual and up to 1 verbal prompt. In mock and real time situations, AK identifies verbal and nonverbal communication that indicates if a person is busy or available in 59% of opportunities given 1 verbal/visual prompt. After identifying people who are available in his environment, AK engages an available person by making a greeting, saying their name, making a comment, asking a question or to express his wants/needs in 70% of opportunities given a visual and up to 1 verbal cue. AK avoids repetitive information during a conversation by making a new topic comment or asking a question in 65% of opportunities given 1 and up to 1 verbal prompt. Currently, AK directs his peers and staff by indicating when it is their turn, however, AK does not always do this appropriately. He states it when his teacher is instructing the class. Additionally, AK does not direct others to self-advocate or himself such as asking for space or indicating the room is too loud, as he sometimes just cover his ears. While AK is a very social communicator, he demonstrates difficulty in identifying the appropriate communication partner to express wants/needs to. For example during a speech group, AK asked this clinician for water following 3 verbal prompts, AK successfully asked his teaching assistant for water. Across his environments, AK demonstrates difficulty in identifying social expectations, such as to stay with the group while in the community and bring him up to 4 verbal/visual prompts to identify two social expectations based on his environment. Similarly, AK has difficulty in identifying expected and unexpected verbal and non-verbal communication. Oftentimes, he will walk away from his communication partner to engage with them, repeat himself, or initiate an unexpected communication topic for the appropriate communication partner. He has currently been increasing his skills in identifying different topics when repeating himself, however, he continues to benefit from 2-3 verbal prompts at times. Overall, these objectives will work towards increasing AK's independence in his social and expressive language.				
Annual Goal/Target What skill(s) will the student be expected to attain by the end of this IEP's timeframe?	Criteria What measurement will be used to determine whether the goal has been achieved?	Method How will progress be measured?	Schedule How frequently will progress be measured?	Person(s) Responsible Who will monitor progress?
AK will increase his expressive and social pragmatic language skills by directing others, identifying expected and unexpected behaviors, and identifying an appropriate communication partner to engage with given no more than 1 verbal or visual prompt.	AK will achieve the identified subsequent objectives in 4 out of 5 opportunities	data collection, work samples, and formal/informal observations.	biweekly	Progress on objectives 1-4 will be monitored by a Speech-Language Pathologist or Speech-Language Pathology Assistant. Data will also be collected by residential staff for objective 4.

Short-term objectives and/or benchmarks (intermediate steps between the baseline and the measurable annual goal)

Massachusetts DESE Individualized Education Program (IEP)

Student: AK

IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

- 1) AK
op will appropriately direct others (e.g., “too loud”, “come here”, “go away”, “move X”, etc.) across settings in 4 out of 5
ities given up to 1 verbal/visual prompt
- 2) Given mock and/or real time situations, AK will identify 2 social expectations for the environment given up to 1 verbal cue.
- 3) Given mock and/or real time situations, AK will identify expected and unexpected verbal and non-verbal communication skills
(e.g., body proximity, repetition, topic choi ying on topic, volume, etc.) for his communication partner, setting, and situation in 4
out of 5 opportunities given 1 verbal/visual prompt
- 4) AK will identify an appropriate communication partner (e.g., vocational site supervisor, house manager, teacher, etc.) to make a
gr comment to, or express his emotions, wants, and needs across settings (e.g., classroom, vocational, residential, etc.) in 4 out
of 5 opportunities given up to 1 verbal/visual prompt

Draft

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

Goal Number: 4	Goal Area: Praxis			
Baseline (What can the student currently do?):				
AK demonstrates challenges with body and spatial awareness. He bumps into people or objects in his environment as if they are not there. AK observed moving throughout his day, often bumping into people or objects. He often fails to notice if his clothing is twisted on his body or if his shoes are on the wrong feet. This, combined with a limited spatial awareness and fluctuating attention level, can often lead to knocking things over or spilling items unintentionally. AK consistently does not cross his body in all planes (e.g. crossing his arms over his body, bending at the hips, etc.). AK demonstrates difficulty determining an effective plan along with accurately performing the action. All of these areas need to be addressed to a presentation of clumsiness and being globally uncoordinated. For example, when asked to roll dough into a ball, AK continuously rolled it into a log despite having someone complete the task in tandem alongside him. He appeared to be a bit frustrated as he reported it was not a ball after trying to copy this writer. These challenges with crossing the midline, reaching outside of his immediate space impact his overall coordination and motor planning. AK would benefit from practicing these skills to improve his safety and overall independence across settings.				
Annual Goal/Target What skill(s) will the student be expected to attain by the end of this IEP's timeframe?	Criteria What measurement will be used to determine whether the goal has been achieved?	Method How will progress be measured?	Schedule How frequently will progress be measured?	Person(s) Responsible Who will monitor progress?
Provided with visuals as needed and verbal prompting, AK will improve his planning and praxis skills for increased independence and accuracy with multi-step tasks as demonstrated by the following objectives:	Based on meeting all measurements indicated per objective.	Progress will be measured by data observations.	Data will be collected weekly for quarterly reported progress.	Progress on objectives 1-3 will be monitored by an Occupational Therapist/Occupational Therapy Assistant.

Short-term objectives and/or benchmarks (intermediate steps between the baseline and the measurable annual goal)

1. AK will demonstrate improved body and spatial awareness by imitating movements that cross his midline in all planes with verbal cues and 80% accuracy in 3 out of 4 opportunities observed
2. Provided with visuals and no more than 1 verbal prompt, AK will sequence up to 4 steps of a directed task with 80% accuracy in 3 out of 4 opportunities observed.
3. After sequencing, AK will execute a multi-step motor task with 1 reminder to reference his directions and sub-sequential gestural prompts as needed in 3 out of 4 opportunities observed.

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025

Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

SCHEDULE OF PROGRESS REPORTING

Explain how and when parent(s) will be periodically informed of the student's progress toward meeting the annual goal(s):

Progress will be reported quarterly.

PARTICIPATION IN THE GENERAL EDUCATION SETTING

Can the student's educational needs be met in the general education setting, with or without the use of supplementary aids and services?

☐ Yes ☒ No

If no, provide an explanation of the extent to which the student **will not** participate in general education. Include a description of the specific supplementary aids and services considered before determining that the student would be removed from a general education class or activity.

AK requires structured, individualized instruction in a group setting to learn and generalize new skills due to his logical, intellectual, and Autism based disabilities. AK attends a year-round residential school to address these needs.

SERVICE DELIVERY

Include specially designed instruction, related services, and supports based on peer-reviewed research to the extent practicable (including, if applicable, positive behavioral supports and support/training for school personnel and/or parent[s]). Consider providing services in general education settings before considering other options.

Goal Number(s)	Type of Service	Provided by List job title	Location	Frequency/ Duration __ x __ minutes per __ - day cycle	Start Date	End Date
A. Consultation (Indirect Services to School Personnel and Parents)						
1-4	Behavior Management	BCBA/Behavior Specialist	Special Education Setting	1 x 30 minutes per 30 - day cycle	12/19/2025	12/18/2026
1-4	Speech/Language Consult	SLP/SLP-A	Special Education Setting	1 x 30 minutes per 30 - day cycle	12/19/2025	12/18/2026
1-4	Occupational Therapy Consult	OTR/COTA	Special Education Setting	1 x 30 minutes per 30 - day cycle	12/19/2025	12/18/2026
1-4	Case Management	Student Program Coordinator	Special Education Setting	4 x 30 minutes per 30 - day cycle	12/19/2025	12/18/2026
C. Special Education and Related Services in Other Settings (Direct Service)						

Massachusetts DESE Individualized Education Program (IEP)

Student: AK IEP Dates 12/19/2024 to 12/18/2025
Grade: SP DOB: [DOB] LASID#: [LASID] SASID#: [SASID]

TRANSPORTATION SERVICES

- ☒ Transportation will be provided in the same manner as it would be for students without disabilities. (Please note that if the student is placed in a program located at a school **other** than the school the student would have attended if not eligible for special education, then transportation will be provided.)
- ☐ The student requires transportation supports and/or services as a related service.

SCHEDULE MODIFICATION

Does the student require a different duration to their school program, including the length of their day or year so that they can receive a free appropriate public education?

☒ Yes ☐ No

If yes, what are the student's disability-related needs that require a different schedule?

Due to the nature and severity of AK's multiple disabilities, he requires an extended year setting to help prevent regression of previously learned skills and le ecoupment time.

If yes, describe the change in schedule to the student's educational program.

AK attends a 365-day residential educational program.

If the student requires Extended School Year Services, please include the services they will receive (including, if applicable, positive behavioral supports and support/training for school personnel and/or parent[s]) during Extended School Year in the service delivery grid below.

SERVICE DELIVERY FOR EXTENDED SCHOOL YEAR SERVICES

Describe the specially designed instruction, related services, and supports that the student needs during extended school year to receive a free appropriate public education

ADDITIONAL INFORMATION

Record other IEP information not previously stated (e.g., information about the student that is important to know but is not addressed through IEP goals and services).

AK meeting on April 30, 2021 the topics of the Chapter 688 Referral, Age of Majority and Transfer of Rights were introduced. 's team members will help him prepare for his annual IEP meeting.

RESPONSE SECTION

School Assurance: I certify that the goals in this IEP are those recommended by the Team and that the indicated special education services will be provided.

Name and role of LEA representative:	Signature:	Date:
--------------------------------------	------------	-------

Response from parent(s) or student who has reached the age of majority with decision-making rights:

It is important to tell the district your decision as soon as possible. Please indicate your response by checking the appropriate box below and returning a signed copy to the district.

☐ I accept this IEP as developed.

☐ I reject the following portions of the IEP with the understanding that any portion(s) that I do not reject will be considered accepted and implemented immediately. Rejected portions are as follows:

☐ I reject this IEP as developed

Parent Comment: I would like to make the following comment(s) but realize any comment(s) made that suggest changes to the proposed IEP will not be implemented unless the IEP is amended.

Signature of Parent(s), Guardian, Educational Surrogate Parent, or Student 18 and Over**	Date:
--	-------

** Student signature is required once a student reaches 18 unless there is a court-appointed guardian.

Meeting Request

☐ I request a meeting to discuss the rejected IEP or rejected portion(s).

Placement Consent Form -- School-aged PL1:
Aged 5 (enrolled in kindergarten) and aged 6 through 21

IEP Dates 12/19/2024 to 12/18/2025

Special Education Team - Educational Placements	Corresponding Placement
The team identified that IEP services are provided outside the general education classroom less than 21% of the time (80% inclusion).	☐ Full Inclusion Program
The team identified that IEP services are provided outside the general education classroom at least 21% of the time, but no more than 60% of the time.	☐ Partial Inclusion Program
The team identified that IEP services are provided outside the general education classroom for more than 60% of the time.	☐ Substantially Separate Classroom
The team identified that all IEP services should be provided outside the general education classroom and in a public or private separate school that only serves students with disabilities.	☐ Separate Day School ☐ Public or ☐ Private
The team identified that IEP services require a 24-hour special education program.	☒ Residential school
The team has identified a mix of IEP services that are not provided in primarily school-based settings but are in a neutral or community-based setting.	☐ Other:

Parent Options / Responses

It is important that the district knows your decision as soon as possible. Please indicate your response by checking at least one (1) box and returning a signed copy to the district along with your response to the IEP. Thank you.

- ☐ I consent to the placement.
- ☐ I refuse the placement.
- ☐ I request a meeting to discuss the refused placement.
